PROFESSIONAL SUMMARY

Final-year Interaction Design student at George Brown Polytechnic with project experience in UX research, information architecture, user flows, wireframing, interface prototyping, and front-end development. Combines human-centred design with a background in a Bachelor of Science program in Computer Science to translate user needs and workflows into clear, accessible, build-aware interfaces. Interested in contributing to hands-on design and close collaboration with product and engineering teams.

EDUCATION

Interaction Design, Ontario College Advanced Diploma — **Expected April 2027**
George Brown Polytechnic — *Toronto, ON*

Computer Science, Bachelor of Science Program — **Jan 2022 - Dec 2023**
Toronto Metropolitan University — *Toronto, ON*
(Intentionally changed academic direction to pursue Interaction Design at George Brown Polytechnic.)

TECHNICAL SKILLS

- **UX & Interaction Design:** UX research, usability testing (surveys and think-aloud testing), information architecture, sitemaps, user flows, personas, journey maps, cognitive ergonomics, interaction design, information design, interface design, visual design, wireframing, prototyping, accessibility, technical drawing
- **Design Tools & Technologies:** Adobe Illustrator, Photoshop, After Effects, Autodesk Maya, Figma, Canva, Bootstrap, Processing (Java mode), GitHub
- **Programming & Web Development:** HTML, CSS, JavaScript, Java, jQuery, AJAX, Node.js, Python, C++
- **Data & APIs:** Chart.js, DataTables, JSON, API integration

PROJECTS

SafeWay | Safety-First Transit Navigation App Concept | Physical Interfaces Group Project

- Translated commuter scenarios: including hard-of-hearing and wheelchair-user journeys into user flows for Safe Mode, safe stops, disruption alerts, and accessible rerouting.
- Co-designed Figma wireframes and prototypes for the safety-first TTC service concept, with supporting brand and presentation visuals created in Canva.

Checkless | Tamagotchi-Inspired Wearable & Companion App Concept | Physical Interfaces Group Project

- Co-designed a convertible smartwatch/keychain device and connected companion app to reduce students' cognitive load through change-only alerts, an explicit "all clear" state, and button-based interactions.
- Created Figma and Canva wireframes and prototypes for device and app flows; used *fal.ai* to produce a scene-by-scene product video advertisement.

Craigslist Website Redesign | Team Information Architecture Project

- Completed a six-week redesign project focused on Craigslist's information architecture and classified ad experience.
- Gathered research through approximately 15 surveys and think-aloud usability tests, then developed

personas and user cases.
- Developed revised user flows, sitemaps, journey maps, wireframes, interface components, and navigation rules for the final concept.

ANURAGA | Relationship Wellbeing App Web Prototype | Interface Development Coursework | Homepage
- Designed and coded a mobile-app prototype featuring mood selection, daily check-ins, reflection forms, and browser-based storage.
- Organized the interface around recurring tasks, including check-ins, relationship insights, and a communication toolkit.
- Built the front end with HTML, CSS, JavaScript, and Bootstrap; insights and toolkit screens are presented as interface concepts.

Interactive Financial Dashboard & Data Visualizations | Dashboard | Data Viz
- Developed interactive dashboard and visualization views using JavaScript, Chart.js, jQuery, and DataTables.
- Implemented searching, sorting, filtering, calculations, and interactive exploration of information.

API Chatbot and Dynamic Data Interfaces | Web Development coursework | Repository
- Built a chatbot exercise that sends JSON requests to the Gemini API and displays the returned response.
- Practiced JSON-driven tables and dynamic page loading with JavaScript and jQuery.

EXPERIENCE

Space Design Committee, George Brown Polytechnic — September 2025 - Present
Executive Procurement Manager and Sustainability Coordinator — *Toronto, ON*
- Oversee budgets, cost estimates, purchase requests, vendor research, expense records, and sustainable material planning.

Fiverr — May 2021 - September 2021
Freelance Graphic Designer & Canva Specialist — *Mumbai, India*
- Provided freelance graphic design services: logos, posters, graphic assets, and social media carousels with a primary focus on Canva-based visual production.

Dr. Priya's Neokids Clinic — May 2020 - December 2021
Brand Designer & Digital Marketing Coordinator — *Mumbai, India*
- Developed the clinic's visual identity and logo, establishing consistent branding across print and digital materials.
- Designed posters, flyers, brochures, and social media content to promote clinic services and support patient communication.
- Established and managed the clinic's online presence by setting up its Google Business Profile, Google Maps listing and Instagram account.

AWARDS & ACCOMPLISHMENTS

- TEDx TMU Ambassador Award, *TMU* — Feb 2023
- Top 20 Toastmasters TEDx TMU Public Speaking Competition, *TMU* — Feb 2023
- 100 Designs Achievement Certificate, *Canva* — 2024
